

Burnin' It Down

Verse 1

The word

It burns

It turns

And everything

That breathes

That seethes

Believes

What it believes

Pre-chorus1

And right don't matter when the feelin' is wrong

Now words don't matter when you're singing a song

We'll lose this battle if they all sing along

There's no time like this, there has been no time like this

Chorus

Hey wait a minute

Don't be dealin' in it

There's a lesson

And you just don't seem to get it

Marchin' in a line ya

Never see the signs yeah

Now we're outta time

We're burn burn burnin' it down

Verse

You shake

You break

You take

And everything

Around

Burns down

The sound

Is deafening

Pre-chorus 2

When truth don't matter then you're losing a war

Darkness is comin' and we've seen it before

You can't win nothin' cause there isn't a score

There's no time like this

There has been no time like this

Chorus 2

Hey wait a minute

Don't be dealin' in it

There's a lesson

And you just don't seem to get it

Marchin' in a line ya

Never see the signs yeah

Now we're outta time

We're burn burn burnin' it down

Bridge

The world keeps turnin' around

The spin is a deafening sound

We're burn, burn, burnin' it

Burn, burn, burnin' it

Burn, burn

Chorus

Hey wait a minute

Don't be dealin' in it

There's a lesson

And you just don't seem to get it

Marchin' in a line ya

Never see the signs yeah

Now we're outta time

We're burn burn burnin' it

Burn, burn, burnin' it

Burn, burn, burnin' it down

We're burn burn burnin' it down

We're burn burn burnin' it down

We're burn burn burnin' it down

We're burn burn burnin' it down
