Who U think U are, Pt 2

One day. One day. One day we'll be free.

Tranquilo. Tranquila. Crown Chakra.

Get on up. Get on up. Up in the sky. Bust a nut with your thirdeye.

Thats good. That's bad. That's funky. Skunky Monkey. Come put your stink on me. Come put your stink on me.

Shugaboo.

We bout to get balls deep into the universe's coochie. The Yoni is sweet.

Tranquilo. Tranquila. Crown Chakra.

Conquer fear and hate with greater love.

Tranquilo. Tranquila. Crown Chakra.

We need a people's union.

Rent is sky high and Corporations aren't paying taxes. If they did we wouldn't need reparations. Pay your bill for slavery America.

Tranquilo. Tranquila. Crown Chakra.

America needs to give good gifts before we abolish this union and begin again like the declaration of independence says is our duty in times like these. When both parties don't deserve your vote. Vote to abolish this nation and begin again. Capitalism exists because of spiritual and mental slavery.

Tranquilo. Tranquila. Crown Chakra.

The first president and the author of our first constitution was an African. Jazz, HipHop, R&B, Rock, Country, Soul, Gospel... all African. The Vatican. The Divner Serpet was created by Queen mothers, The first Prophets, AfRAkan Women. If we step outside of fear, out of the root chakra and live for something more than money, sex, and violence, they can't stop us.

Tranquilo. Tranquila. Crown Chakra.

If we dare to rise up against the slave master called Jesus, Stop hailing Zeus, and return to Oya, and Amen RA, we can manifest pyramids again. And a new civilization based on the old meditation of Ma'at.

Truth, Justice, Righteousness, Order, Balance, Harmony, and Reciprocity.

Get on up. Get on up. Come up out this mental and spiritual slave ship. Get birthed in Reverse.

OOh Wee. Look at that booty. Can you see our new statue of Liberty. Clap your hands. Stomp your feet. Get up on this Afro Futuristic beat. Get on up. Get on up. Up in the sky. Bust a nut with your third eye.

People who live a lie are nosey like Karens. Fascist like slave masters. Spiritually illiterate, knuckle dragging sycophants always on the offense to keep you on defense so we can't manifest a brighter day. Ignore the dork chatter. Kill them with truth, kindness, and forgiveness. Teach or get taught greater love.

Tranquilo. Tranquila. Crown Chakra.

We indigenous. We was here thousands of years before the pilgrims. Olmec heads buried around Mexico City, 20 thousand year old pyramids in guatemala. Machu picchu, inca and Aztec pyramids... all African.

The Americas are an African colony. We walked and floated on ocean currents. We are genius explorers and traders bringing sugar, spice, hygiene, medicine, technology, and Heaven with Ma'at and Amen RA, Oya and Olodumare. A million years of wisdom.

Its not too late. We can fix this with Truth, Love, and Forgiveness. They don't deserve it. But we do it for ourselves because we know no other way to rattle Massa's cage and all that serve Satan and Set. Irrational Forgiveness casts hot coals on the heads of the unrighteous.

Their time ended 23 years ago.

The first are now last. We face to face, God to God.

I am Heru. So are you. Ma'at welcomes you to begin again. Oya and Amen RA strengthen us. Jesus Christ is an Orisha of forgiveness but we can't get free with forgiveness. The opposite of patience is self destruction. Persistence, Resilience, Genius, and Creativity will free us. Queen Mothers got this. Honey we sweet with it. Mambo, Salsa, Capoeira... Orisha, Diviner Serpents, We humble and knowing. We free if we just believe Its all love.

Free yourself from the limits of European sycophants. AfRAka is a land of abundance and sunlight. It's not the dark content. Its the land of light. We AfRAkans are sunny people. Shine Bright.

Get on up. Get on up. Up in the sky. Bust a nut with your thirdeye.
