

# HOW DEACONRAP CAME TO BE...

I'm a locally known Otaku rapper who blends hip hop culture, with an upbeat nerdy twist! I started in 2013 when I recorded and made a music video for Mizuumi Con 6. I was well received by both Convention staff and Con goers. Since then I have released a full album, toured all over the state of Texas, did both conventions and music festivals and have even got the honor of sharing a stage and rapping with hip-hop legends like Darryl "DMC" Daniels and Lil' Flip. I will be releasing my second album later this year.

## Musical Guest DEACONRAP

## What I can do for your Convention/Concert

**Convention:** NerdCore hip-hop has gained more demand in the last few years than ever before. What I bring is a bigger diversity of music concerts offered at conventions with my family friendly raps about Otaku culture will be an attraction that generates interest and unites the community in a positive way.

**Concert:** There are many different types of rappers such as, Gangster, mumble, clean, inspirational and what I offer is a whole new genre that the masses have yet to hear or are yet to be aware of which is Nerdy/Otaku rap.

## Most Notable Cons I've Performed at and been a musical Guest...

- **San Japan (2018)**
- **Alamo City Comic Con (2018)**
