

*(30 Days) Tasks Not Meaning –video stills of performance, 2017*

*30 Days) Tasks Not Meaning* is video documentaton of a performace that took place from January-February of 2017. Every morning I wrote a protest slogan in water and filmed it evaporating. The time-lapse version is what you see here. This project was inspired by my continuous participation in various protest in Los Angeles, and afterwards seeing all the signs with handwritten slogans in the trash afterwards. I proceeded to documented this with a 35mm camera. *(30 Days) Tasks Not Meaning* continues my interest in the psychological aspects of language, the symbolic violence contained within semantics.
