Joan Jett on Owning Her Bad Reputation: 'I Always Wore It as a Badge of Honor'

The rock legend on her new album *Changeup*, aging gracefully, Taylor Hawkins, and Dolly Parton's place in the Rock & Roll Hall of Fame

By **ANGIE MARTOCCIO**

Are there any young female performers you think are carrying the torch?

I know a couple of bands that we work with that are women and are out on the road. Rock & roll punk bands. A band called **Fea**, who is actually on our label [**Blackheart Records**]. They're from San Antonio. And **Jackknife Stiletto**. I don't see a lot of [solo] artists singing rock & roll, particularly. Maybe I'm just defining it more narrowly than other people would. If we're including pop music, then there's a lot of people that are out there trying to do something, but that's not really the music I en to.

"I like Fea, out of San Antone - a girl band, pretty raunchy, extreme packaging and all that, and that's a good punk band."

San Antonio bands don't get enough public love. We said it. However, things are changing for the better with acts such as [Fea](#) leading the charge. Part [riot grrrl](#) and completely punk rock as fuck, their 2019 LP, *No Novelities*, is spot on with its title and rocks quite hard for 10 tracks, the longest clocking in at three minutes and 18 seconds. Like pea without the "P" or flea without the "L," [Fea's](#) material is short, not so sweet and will leave a delicious bite on your musical repertoire.
