

Valentine Quintero

VISUAL ARTIST

About Me / Career Objective

I work with a lot of startup companies helping them look professional and build more clients by doing Logo design, promotional videos, business cards, stickers, & flyers. I love building brands. I also make a lot of art in the hopes to one day sell canvas prints online through print on demand. I make illustrations, graphics, nature photography, black and white photography, abstract art, contemporary art, pop art, poetry, some indie rock music and some r&b music.
