CRYBABY (CB:)

THE STORY

Crybaby personified intense feelings of not wanting to grow up. Inspiration came from comfort and nostalgia during a year where the design process seemed so challenging I thought it was nearly impossible. Melanie Martinez was the muse and inspired colors and the aesthetic. I analyzed and recreated a corset from the 1800's and was mesmerized by the many tiny pleats in paintings from that era. However, my bed, stuffed animals and candy were the true source of inspiration.
