ABOUT ME

I am a San Antonio native and I am proud to own and operate my own business, the multi-media production company Machina Cinema Industrial.

I am currently the Creative Director at Machina Cinema Industrial which I co-founded in 2006.

I have had the pleasure to see my business grow and produce projects both nationwide and internationally.

I am seeking a position to utilize my experience in video production, graphic design, marketing, social media strategies, script writing, distribution and sales.

PROFESSIONAL EXPERIENCE

Creative Director 2006 - Present
Machina Cinema

Creative director for all video production. Experienced in on set producing, directing, cinematography, editing and graphic design. I have worked in many different environments from live broadcasting, to corporate promos, feature films and music videos. Assisted in marketing, sales, social media campaigns and have secured funding for all types of budgets and distributed projects to Netflix and Amazon.

Film Instructor 2012 - 2018
S.A.S.I.C.

As a certified teacher, I served the students of SASIC for five years teaching high school video production and script writing. The day to day challenges that a classroom environment brings sharpened my skills in creative thinking, time management, patience and working with a large group.
