Battle of the Bands Marketing Design (2003)

The Battle of the Bands in Mobile, Alabama is a local competition of musical superiority. This was my breakout year as a young adult. One of my mothers proudest moments was to see The Mobile City Council unanimously voted to adopt this design. It went on to break record sales that has yet to be surpassed. This time was also accompanied with attack on September 11, 2001 where I volunteered to defend our country.

Military Service (2003-2010)

During my second deployment assigned to the 92 MP BN as a team we collaboratively created and documented the deployment. The majority of the video and sound quality is limited to the technology available at that time. Most notably a fellow comrade, Michelle Ring, had fallen in line of duty which resulted in us creating a short film to complement her service and sacrifice. In addition to our primary tasks we created memorable short films, presentation and provided audio and video support for Chaplain services. {R.i.P CPL Ring}
