

Nuestra Gente Tribute™

The Nuestra Gente Tribute™ exhibition is an innovative and educational resource that promotes cultural literacy through a multicultural and multigenerational approach. Focused on Latin-American and Latine stories, the collection comprises over 100 stories that are accessible both in-person and digitally.

Additionally, the exhibition offers various educational programs such as story-building and cultural arts workshops, curricula, and presentations. This experience promotes a sense of belonging and empowerment with a focus on our three pillars of influence: Culture, Heritage, and Comunidad.

CULTURE

Through programs and storytelling, individuals are engaged in activities and conversations centered on the influence of culture in foods, literature, arts, science and technology, traditions, and language.

HERITAGE

Audiences learn of a vibrant and historical heritage, exploring identity, cultural literacy, and the importance of representation and diversity.

COMMUNIDAD

Building community through authentic narratives enables individuals to understand the gifts of cultural differences, languages, ethnicities, disabilities, religions, genders, and other diversities. *Nuestra Gente Tribute™* promotes a sense of belonging, value, and inclusion.
