### **Artist Statement**

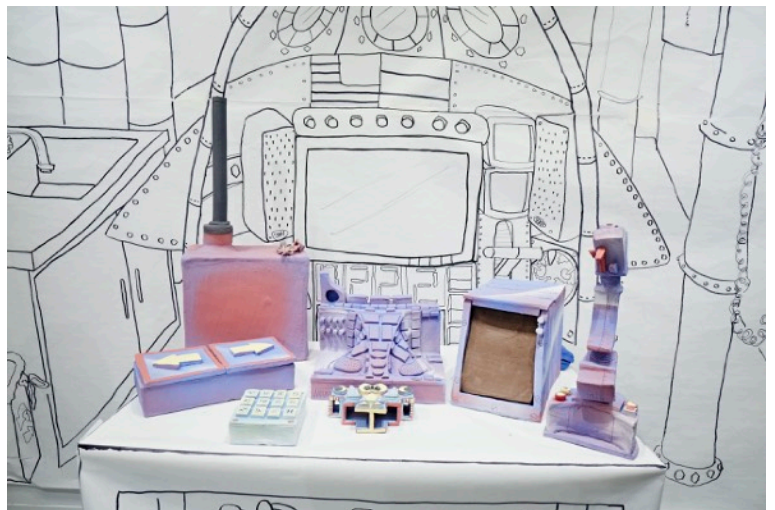

Joshua M G McCormick is an interdisciplinary artist focusing on ceramic-made art objects, which he activates through performance. McCormick uses different facets of his practice, from costume design to two-dimensional environments he creates to perform with his ceramic sculptures. McCormick works near a fictitious collaborator and alter-ego named Moises Imbatchi. Together, they are the architects of a phantasmagorical world where time travel is possible, and seemingly unrelated performances connect as windows or vignettes to an archive of temporal experiments.
