

Art of Consciousness - San Antonio, TX

2019 - Now

I have acted as a supporting artist for the Art of Consciousness collective in a range of ways, big and small. From simply supporting, showing up and spreading awareness, to lending a helping hand wherever necessary, to painting the walls of Galleria EVA before a show, to having my work featured in a show, to being a lead curator / organizer for annual events.

I have been a member of this creative coalescence since its conception. I have offered support in the form of brainstorming, problem solving, painting, offering a fresh set of eyes and a new perspective, setting up and breaking down, loading and unloading and so much more on various projects.
