

"Bonnie Cisneros's *Siempre Verde: A Creative Ecosystem for Feeling & Healing* serves as an archive of the ways San Anto artists looked out for each other and the larger community during the pandemic. With her DJ Despeinada quarantine residency and other gigs, Bonnie found ways to reach out to other artists, to center and document their art and their presence through interviews featured on her website, as she continued to show up for her community and provide a sonic space that invited healing at Evergreen Garden and beyond."

DR. SYLVIA MENDOZA
University of Texas at San Antonio Women's Studies Institute Professor
