PROFESSIONAL ENDEAVORS

Just-A-Perfect Smudge Restoration Artist & Creator

**March 2020 to Present
San Antonio, TX**

- Discovering salvaged materials that exude nostalgia, fall within the definition of artisan, and demand to be revived into glam, glory and rustic couture which is made possible through "envisionistic" innovation, restoration & creation.
- Recovering discarded lumber, pallets, hardware, carpentry supplies and occasionally removed horticulture/landscape which is then engineered into sustainable animal shelters, garden arbor benches, children's playhouses and even storage sheds and tiny living spaces all of which encompass the true definition of full functionality in every aspect.

Fun-Faces Entertainment Owner/Artist/Entertainer

**November 2013 - March 2020
Texas, Arizona & The Carolinas**

- Took a side gig which began as simple face-painting and balloon art at children's birthday parties and small events and expanded it into a multitude of major metropolitan areas amongst 4 states.
- Recruited, taught and mentored talents of all arenas, from clowns & caricature artists to Musicians and Animal Entertainers as I traveled from city to city in order to achieve explosive and successful expansion.
