30 Minutes or Dead, Short Film – *Director, Editor, Producer*

Short film I directed in the end of 2022 and beginning of 2023 It was a passion project and what I consider my first real independent film. It's a short horror film I made with my friends who are other local artists, a crew of 5 and a cast of 7. I submitted and was accepted into the **SAN ANTONIO FILM FESTIVAL 2024**.

Murder By The Slice, Short Film – *Director, Producer*

The sequel to 30 Minutes or Dead. We filmed this short the summer of 2024 with a budget that we raised and had a much larger cast and crew. We had returning cast and crew members and it was a much more polished project.

Say Si

An after school art program I attended from middle school through high school, it was a non profit organization that taught me film and photography. It's where I learned to be a filmmaker. They teach you how to not only write and direct but to edit and be a gaffer and do audio.
