I am a self-taught artist and photographer based in San Antonio, TX, my work explores everyday life through abstraction, urban landscapes, and portraiture. My creative journey has been shaped by diverse experiences such as my extensive travels across the U.S. as a hitchhiker, living out of a backpack. I draw my inspiration from my surroundings and subconscious, I blend minimalism with a raw, unfiltered perspective on the human experience.

EDUCATION

Self-taught artist and photographer, continually learning through personal experiences and others' examples.

ARTISTIC FOCUS

My work explores the tension between perfection and imperfection, blending control with chaos to create introspective art. Through shadows, shapes, and forms, I seek to evoke a dialogue between the art, myself, and the viewer. Both my photography and painting invite reflection and self-discovery.
