Title: HEB Interactive Community Mural

Date- 2022

Role- Lead Arist

Narrative

This mural was painted on three 4x8 weather-treated panels for HEB. They wanted a mural to depict the San Antonio River Walk and the Frio River merging to pay homage to both headwaters. The Community added the monarch butterflies that migrate through San Antonio. The mural is located at the HEB headquarters located near the Frio River.

As a community mural members of HEB were part of the creative process, from design ideas and community paint days.

This mural has 3D elements that were pre-fabricated for the community to paint and elements were installed once the painting was completed. The rain was an added element that makes it interactive for the viewer. The 3d elements in the mural are the clouds, flowers, umbrella, cactus, butterfly, and rain.

- Sunrise
- River walk
- Plant life
